EXPERIENCE

Shared Services Canada, Ottawa, ON | June 2020 – September 2020
Storage Support Assistant
- Performed tape refresh using NetBackup moving data from LT04 tapes to LT06 tapes.
- Assisted with the development of the storage team's webpage and increased productivity by creating a user-friendly interface.
- Managed the tape library at the Data Centre by swapping old and new tapes and replacing corrupted tapes.

Computer Science Student Association, Ottawa, ON | April 2020 – Present
Vice President of Internal Affairs
- Represented the undergraduate computer science student body at the University of Ottawa.
- Recorded weekly meeting minutes that are accessible to all 1000+ members of the faculty.
- Collaborated with other executives to communicate with computer science students through email newsletters and social media.
- Organized a virtual 101 Week for 150+ first year students by planning in-person and alternative online events.

uOttaHack, Ottawa, ON | May 2020 – Present
Logistics Coordinator
- Organized a 36-hour hackathon for 500+ participants, volunteers, and sponsors.
- Prepared for a virtual event by managing the event platform and developing alternate solutions to in-person activities.
- Reached out to speakers and sponsors to plan and schedule 10+ workshops and presentation.
- Acted as a liaison between the logistics and finance team to ensure the budget is met.

Canada's Wonderland, Vaughan, ON | May 2018 – September 2019
Aquatic Team Lead
- Trained and certified a team of 150+ lifeguards at Ellis Lifeguarding courses and CW attractions.
- Ensured the safety of up to 1200 guests daily by responding to and managing emergency or rescue situations.
- Scheduled daily breaks and rotations for 10-hours of operation, recorded nightly logs, performed preventative maintenance checks, and participated in regular supervisory meetings.
- Trained and motivated my team by administering corrective action, performance evaluations, and assisting the aquatic trainers with vigilance awareness tests.

PROJECTS

Personal Website | *eliankarpov.github.io*
HTML, CSS, JavaScript, Bootstrap
A website I developed to learn more about web development, contains information about myself, my resume, and contact information.

Skip the Waiting Room | *github.com/eliankarpov/Skip-the-Waiting-Room*
Java, XML, Android Studio
An Android application that allows patients to book appointments and check in at clinics, and employees to add and edit services their clinics offer.
